SIEG GABRIEL G. SOLA

sieggabrielsola12@gmail.com | +639519764162 | www.linkedin.com/in/sieg-gabriel-sola

PROFILE

BS Mathematics graduate (Cum Laude, DOST-SEI scholar) with hands-on experience in statistical modeling, time-series forecasting, and applied machine learning in Python and R. Built and evaluated multivariate forecasting models and quantum image classification models. Experienced in financial reconciliation and quantitative quality assurance.

EXPERIENCE

DOST - Advanced Science and Technology Institute ***March 2026 - April 2026***

Researcher on Computing Intern

- Developed and benchmarked quantum encoding strategies in Qiskit and PennyLane for hybrid quantum machine learning algorithms.
- Designed and executed statistical validation procedures to audit the outputs of 144 stochastic model configurations, using non-parametric testing and correlation analysis, to ensure model fidelity and performance stability.
- Co-authored a comprehensive study on model architectures and perfomance metrics, enhancing understanding of quantum applications.

LGU - Rizal, Laguna ***June 2025 - August 2025***

Accounting Intern

- Verified financial records by cross-checking expense reports, receipts, and payroll computations against official documents while coordinating with municipal departments to resolve discrepancies and obtain approvals
- Digitized 11 barangays' financial data from January to June 2025 into Microsoft Excel, creating a searchable database for the municipal accounting office.

Photomath Inc. ***August 2020 - January 2024***

Math Expert and Mathematical Quality Assurance Reviewer

- Produced 2,800+ step-by-step technical solutions in LaTeX for a global student user base, translating complex quantitative reasoning into clear, accessible explanations.
- Reviewed 13,000+ peer-submitted solutions for mathematical accuracy and formatting consistency, functioning as subject-matter QA across a distributed contributor base.

EDUCATION

Southern Luzon State University ***Graduated: May 2026***

Bachelor of Science in Mathematics - GWA: 1.44, Cum Laude | DOST-SEI scholar

- Relevant Coursework: Probability and Statistical Theory, Applied Multivariate Analysis, Mathematical and Statistical Modeling, Linear and Abstract Algebra, Actuarial Mathematics

TECHNICAL SKILLS

- **Mathematics**: Probability, Statistics (Parametric/Non-parametric inference, Post-hoc analysis), Linear Algebra, Mathematical Modeling
- **Programming/Tools**: Python, R, Microsoft Tools (Excel, Word, Powerpoint), LaTeX (Overleaf, Texmaker), Basic SQL querying
